What happened? Where? When? (Day & time) Who with?	What went through my mind? What disturbed me? What did those thoughts/images/memories mean to me, or say about me or the situation? What am I responding to? What 'button' is this pressing for me? What would be the worst thing about that, or that could happen?	What emotion did I feel at that time? What else? How intense was it? What did I feel in my body?	Am I looking at things through those 'gloomy specs'? How would things look without those 'gloomy specs'? Am I filtering out and dismissing any alternative perspective? What would someone else say about this situation? Is there another way of seeing it? What's the bigger picture? What advice would I give someone else? Is my reaction in proportion to the actual event? Is this fact or opinion?	What could I do differently? What would be more effective? Do <u>something!</u> What will be most helpful for me or the situation? What will the consequences be of doing or not doing....?	What am I feeling now? How intense is that feeling now?
